

HEMLINGTON HALL ACADEMY

EDUCATIONAL VISITS POLICY

CONTEXT

Safely managed educational visits with a clear purpose are an indispensable part of a broad and balanced curriculum and a vibrant aspect of the programme at Hemlington Hall. They are an opportunity to extend the learning of our children including an enrichment of their understanding of themselves, others and the world around them. Visits can be a catalyst for improved personal performance, promote a lifelong interest and in some cases lead to professional fulfilment. They are to be encouraged.

STATEMENT

Hemlington Hall Academy recognises its 'Duty of Care' and statutory responsibilities for the Health, Safety and Welfare of participants, staff, any voluntary assistants, providers and members of the public in connection with educational visits for which it is accountable. (reference: DfES/0803/2001, Health and Safety: Responsibilities and Powers)

In order to achieve and maintain the highest possible standards in this regard, Hemlington Hall has adopted the following guidelines issued by the DfE:

Health and Safety of Pupils on Educational Visits	DfES/HSPV2, Sept 1998
Standards for LEAs in Overseeing Educational Visits	DfES/0564/2002, July 2002
Standards for Adventure	DfES/0565/2002, July 2002
A Handbook for Group Leaders	DfES/0566/2002, July 2002
Group Safety at Water Margins	DfES/CCPR/2002, Dec 2002

These guidelines will form the basis of excellent practice in the management and conduct of the school's educational visits. From time to time they will be supplemented by complementary guidelines, instructions and procedures issued by the L.A, or by Hemlington Hall with the approval of the L.A. Together they will be known as 'Safety Guidelines for Educational Visits and Adventure Activities'.

Hemlington Hall Academy visits are covered under the RPA Government Insurance Policy. We follow advice and guidance to ensure all visits are covered within this policy, and advise our insurers of any visits which may be considered 'more risky' or unusual in advance. All documentation and record keeping for school visits are available for the insurers for review and monitoring at any time.

HEMLINGTON HALL ACADEMY

PURPOSE

- To ensure that appropriate measures are in place to enable every pupil to have the opportunity to benefit from educational visits;
- To ensure that all visits are safe, purposeful and appropriate to meet the educational needs of all pupils taking part;
- To enable Hemlington Hall to identify appropriate functions, responsibilities, training, support and monitoring for governors and all committees, staff, any volunteer assistants, pupils and providers involved in educational visits;
- To enable compliance with LA 'Safety Guidelines for Educational Visits and Adventure Activities' which incorporate guidelines published by the DfE in 1998 entitled 'Health and Safety of Pupils on Educational Visits' (APPENDIX 2) together with Supplements 1-3 published in July 2002 and Group Safety at Water Margins;
- To ensure that whenever appropriate, further advice is sought from the LA and from other technically competent sources.

KEY PRINCIPLES

STAFF

- All educational visits at Hemlington Hall will be linked to learning objectives and planned sufficiently well in advance in accordance with good practice and effective planning procedures;
- The EVC of Hemlington Hall will be responsible for the approval of all visits but may delegate the approval of local routine and low risk visits (Category A) to an appropriate member of staff, as the Group Leader
- The EVC in consultation with the Head of Hemlington Hall will approve all higher risk visits including adventure activities and residential experience (Categories B and C). The most demanding of visits (Category C) will be submitted to AVEC Health & Safety Department for endorsement.
- SBM Mrs Edmenson/Mrs Karen McGill is the named Educational Visits Coordinator for HHA
- Mr Dave Elliott is the named Governor for Educational Visits

HEMLINGTON HALL ACADEMY

-
- The Group Leader will complete Visit Plan Checklist Brief and pass this information for approval to proceed. A visit should not be planned without initial approval
 - Once the initial Brief has been approved, the Group Leader will complete the Visit Plan Checklist (APPENDIX 1) and attach all associated Risk Assessments as far in advance as possible
 - The Group Leader should conduct a visit to the planned venue whenever possible, or have visited the site / venue previously
 - Working with the EVC as necessary, the Group Leader will be responsible for all aspects of the planning, risk assessment and organisation of the visit. The Group Leader will assume full responsibility during the visit, including ongoing risk assessment, in accordance with 'Safety Guidelines for Educational Visits and Adventure Activities' and in particular 'DfES: A Handbook for Group Leaders' and 'DfE/CCPR: Group Safety at Water Margins'; Where necessary as requested in RA a First Aider will accompany the trip whenever possible
 - Group Leader will present the paperwork for approval to the EVC / Head Teacher. A visit will not go ahead until full documentation is presented, including staffing, and confirmation approved in writing on visit plan checklist.
 - Office staff will keep a copy of the approved visit and associated documents in the central Educational Visits File.
 - The EVC will support the Governors and Head of Hemlington Hall with approval, decisions and the management of educational visits in accordance with Health and Safety of pupils on Educational visits
 - Should any unforeseen incident / accident occur during the trip- including travelling to venue- the school will be informed immediately by phone, the incident will be monitored and noted at the time. A 'Record of incident / accident' proformas will be used to record details of incident / accident on return to school and shared with Head, EVC and Parent as appropriate
 - The Group Leader will ensure Best Value principles are used when purchasing goods and services that appropriate checks are made, that insurance and financial procedures have been followed.
 - Where appropriate, letters sent home to Parents / Carers regarding an arranged Educational Visit could include a statement linked to the conditions surrounding the behaviour of children prior to the visit in order to be certain all aspects of Health & Safety are considered and managed effectively.

HEMLINGTON HALL ACADEMY

SUPERVISION OF PUPILS

The Group Leader will take full responsibility for staffing PRIOR to the visit and the supervision of children during a school visit. To maximise safeguarding, whenever possible, those accompanying children on out of school visits will have had a Disclosure Barring & Vetting (or DBS) check. The pupil:adult ratio will be appropriate to the age of the children, the type of visit undertaken and consider Health and Safety aspects.

As far as possible, children will be supervised in as small a group as possible. Our school recommendation is 1:5 on an outdoor visit and 1:9 on an indoor visit, such as cinema or museum. Staffing should take account of, and include in the ratio, professionals available at the site.

In the first instance, Teachers and Support Staff will be the supervising adults along with any specialist staff at the venue (e.g. Curators, librarians). If additional adults are required, other school staff will be asked to take part. These may include Lunchtime Supervisors and Governors. In some situations, Parents may be asked to attend, however, this would usually only be in an emergency situation in the event of short-staffing (for example, illness), and the Parent would then be appropriately briefed and supported throughout the visit by the Group Leader.

In Early Years, due to the age and needs of the children, a suitable adult would usually be required to accompany their own child on a visit. Staff will need to know in advance of the visit if it is not possible for a parent / carer to accompany their child. In this event, school staff will endeavour to supervise that child, with the permission from parents.

In the event of local (walking distance) / family visits, e.g. church, library, parents / carers may be invited to walk with their child's class to assist staff with safety / supervisory issues. However, parents would be supervised in a larger group with several staff members at all times.

PARENTS/GUARDIANS

- Hemlington Hall documentation will provide information about policy and procedures relating to the safe management of educational visits;
- Parents or guardians will be given sufficient written and supplementary information about educational visits to enable them to make informed decisions and give written consent together with medical and emergency contact details;

HEMLINGTON HALL ACADEMY

- Whenever appropriate for high risk, residential visits at least one briefing meeting with parents/guardians will be arranged.
- Expectations with regard to behaviour and codes of conduct will be explained to parents and guardians. This information will include the necessity of meeting additional costs and making collection arrangements in certain circumstances.
- For local visits, within walking distance, the loco-parentis form will act as sufficient consent. However, Parents will be informed of ANY visit in advance and given the opportunity to ask questions and / or withdraw their child providing there is an appropriate reason.
- If a child is not behaving appropriately in school, concerns may be raised as to the suitability of the visit in terms of the health, safety and well-being of the other children and staff. In this event, the class teacher will consult with the head Teacher for advice, and the Parent / Carer will be invited to discuss the matter and reach a suitable agreement as to the way forward. This may be, for example, a Behaviour Plan / reward chart leading up to the visit, alternative travel arrangements and / or a Parent / additional suitable adult accompanying the child on the visit. If a parent accompanies their child on any school visit, they will take full responsibility for their child throughout the day.

PUPILS

- Wherever possible pupils should be involved with the planning of an educational visit, establishing codes of conduct, assessing and managing risk and evaluating their own learning, development, attitudes and behaviour.
- Pupils should be adequately briefed about aims, expectations and codes of conduct for all educational visits. Ongoing briefings are an important element of learning and safety.
- The Group Leader will discuss any potential Health / Safety concerns or risks with the EVC prior to the visit. This will include the conduct of individuals attending the visit. Appropriate measures will be put in place to avoid any potential risk or injury to any child or member of staff during the visit. This may include, for example, asking a parent to accompany their own child if the child has displayed concerning behaviours over a period of time leading up to the visit. This will be in consultation with a senior member of staff.
- Whilst every effort will be made to ensure all children can access their school visits, the Head Teacher will reserve the right to consider the health, safety and well-being of **all** attending the visit and may decide, in certain unavoidable circumstances, that a child may not take part in a school visit. This decision will

HEMLINGTON HALL ACADEMY

not be taken lightly and will be discussed with Parents / Carers prior to the visit by the class teacher and / or the Head Teacher.

Appendices 1 and 2 outline Middlesbrough's Policies adopted by the school on Health and Safety near water and Emergency Procedures during school visits. These Appendices form part of the Educational Visits Policy and will be vehemently adhered to.

LINKS WITH OTHER POLICIES

Although this policy focuses on the management of Health, Safety and Welfare, educational visits are an integral part of the strategy for learning and the curriculum plan. The policy should therefore be linked to complementary policies concerned with such issues as Equality of Opportunity, Special Educational Needs, Behaviour, Bullying & Discipline, Inclusion and Staff Development.

MONITORING & ASSURANCE VISITS

These procedures will clearly form part of the wider Lingfield Education Trust Health & Safety Policy to which Hemlington Hall Academy must adhere.

DfE RPA Insurers may monitor our Educational Visits procedures at any time to ensure we comply with the terms of the policy held.

Hemlington Hall may seek external assurance / moderation visits from experts annually to ensure that, as an Academy, we are meeting all statutory requirements and are compliant with all Health & Safety regulations.

APPENDIX 2

SAFETY GUIDELINES for EDUCATIONAL VISITS and ADVENTURE ACTIVITIES

CATEGORIES OF VISIT

CATEGORY C Visits where endorsement must be obtained from the LA (employer)

Types of visit that fall into Category C:

- in or near water

This type of visit falls into Category C in accordance with the guidelines issued by the DfES:

Standards for Adventure DfES/0565/2002, July 2002

All water can be identified as presenting a significant potential hazard. The evidence lies in the analysis of incidents which have taken place during education visits over the past few years which have resulted in death or serious injury. It is worth noting that these incidents have more often been associated with activities taking place on water margins or in shallow water rather than when taking part in water based outdoor and adventurous sporting pursuits.

The natural features of Middlesbrough and surrounding area enable ready access to many areas of water, both on the coast and inland. These can provide excellent opportunities for valuable learning experiences and enjoyable activities and furthermore play a part in the everyday life of many people in the area.

It would be detrimental to place unnecessary obstructions in the way of taking advantage of these opportunities providing that effective safety standards are maintained.

Endorsement:

Question: Are all sites where there is water to be viewed as Category C ?

Answer: No – open beaches without cliffs or restricted exits, ponds with low hazard gently sloping banks and narrow streams with low flow rates which lie in the Borough and near locality (e.g. Tees Valley) are to be considered as Category B.

HEMLINGTON HALL ACADEMY

This means that visits to sites which comply with this description can be given approval by the EVC / Headteacher without endorsement by the Health & Safety Department, AVEC

Reference must be made in the Risk Assessment and planning to appropriate information contained in the booklet Group Safety at Water Margins : DfES/CCPR/2002, Dec. 2002, and must contain specific reference to tide, wind, rain and flow rate which will dictate whether the event takes place, Plan B is applied or the event is cancelled.

Action:

Applications are to be processed as Category B for decision by the EVC / Headteacher

Guidance to be sought from Health & Safety Department, AVEC when in any doubt about the venue or influencing factors such as tide, wind, rain and flow rate.
