What is this?

Watch the video lesson to show why we have day and night.

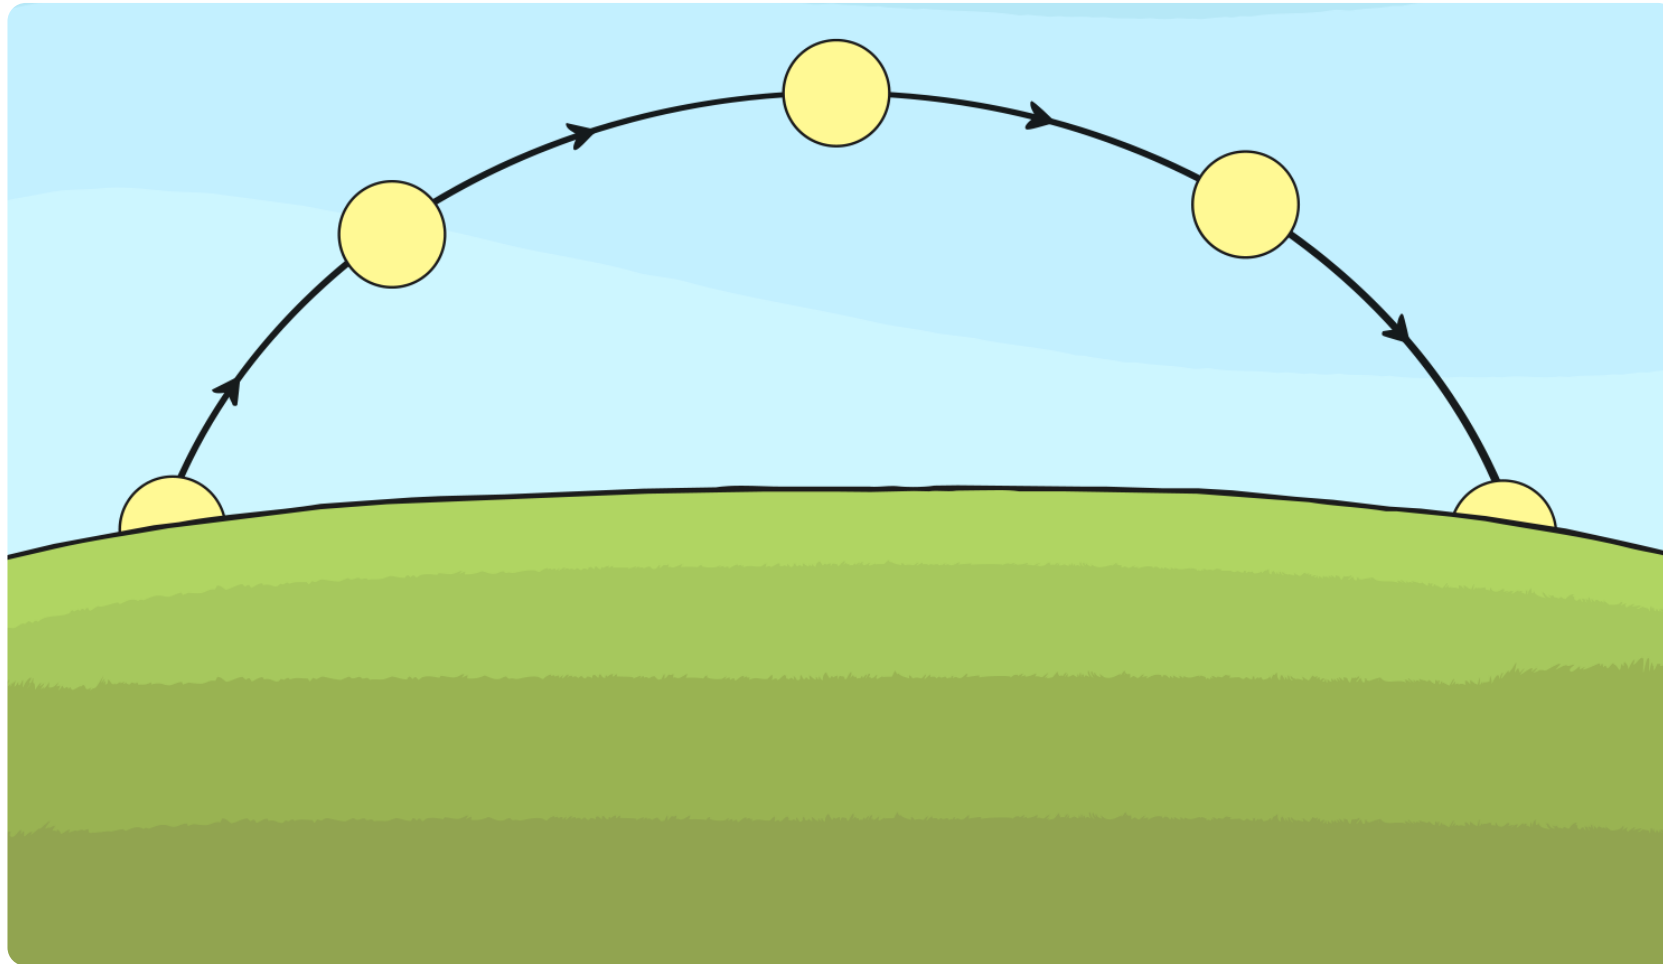

<https://classroom.thenational.academy/lessons/what-is-the-difference-between-night-and-day-60wp2c?step=2&activity=video>

The Sun!

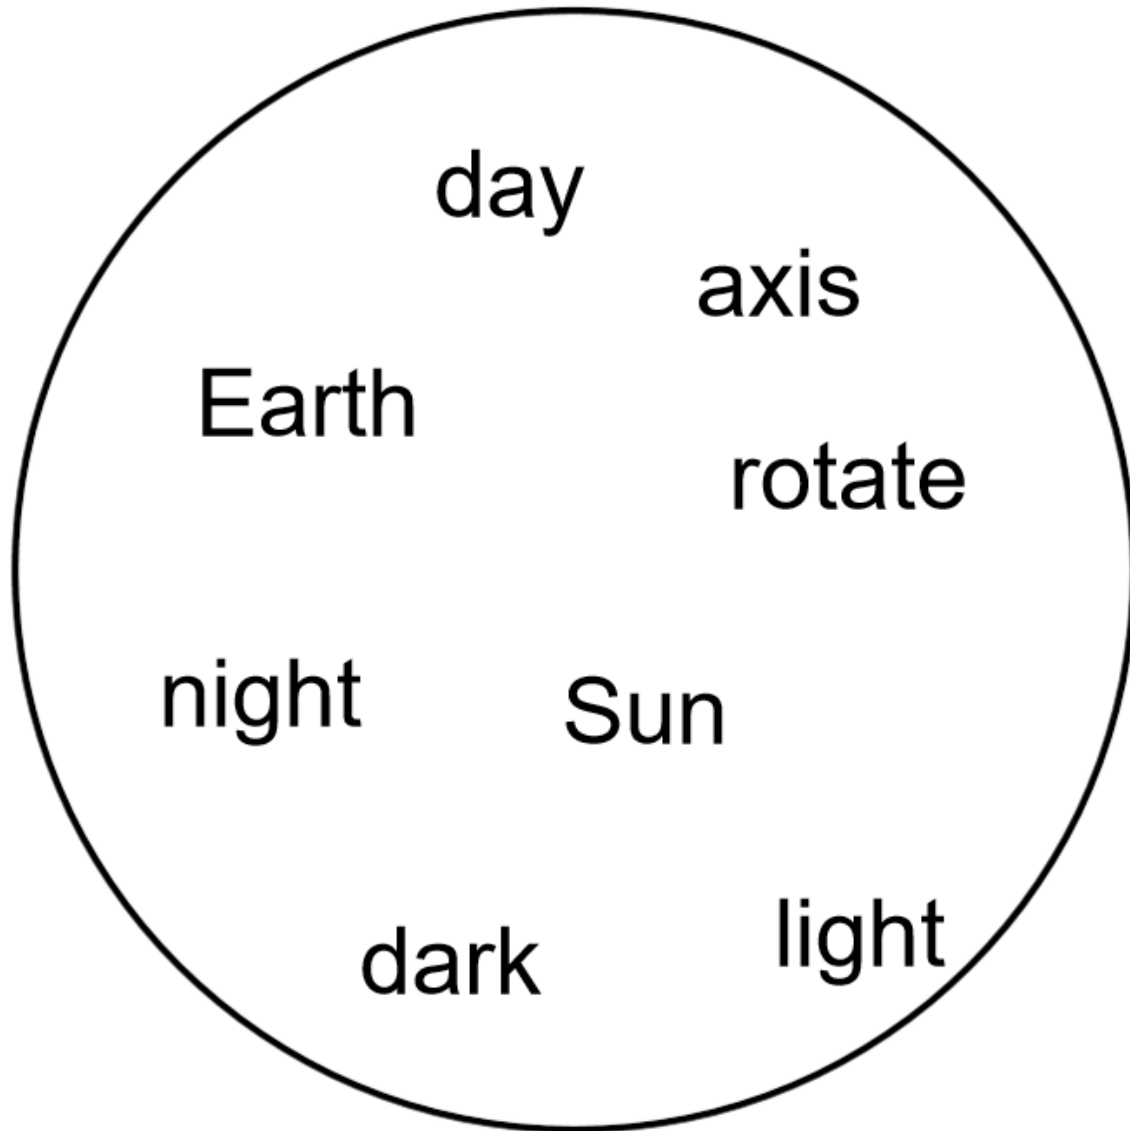

Because the Earth rotates every 24 hours on its own axis we are not always facing the sun.

Does the sun move?

Why does it look like it moves?

Day and Night

Night and Day Key Vocabulary

first
then
next
after that
after a while
meanwhile
during
finally
at last

slowly because / due to
gradually so as this means
eventually but although
however

day shadow noon
night light afternoon
Sun heat evening
Earth night
rotate day midnight
axis morning

Write an explanation of why we have day and night?

Why is our daytime at a different time to Australia?
