Work out the missing lengths on these shapes.

Discuss with a partner how you worked them out.

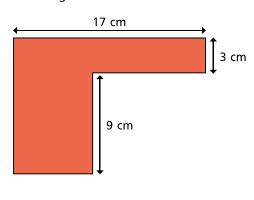

Calculate the perimeter of these shapes.

6 Mo thinks that there is not enough information to calculate the perimeter of the shape.

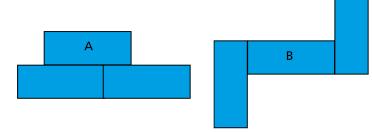

Is he correct? How do you know?

She makes these 2 shapes.

- a) Which shape has the greatest perimeter? \_\_\_\_\_
- **b)** What other shapes can you make with 3 rectangles? What is the perimeter of the shapes?
