

## Thursday

Read pages 16 to 19 of *A Long Walk to Water*.

Again, Salva is experiencing lots of changes. Can you explain how Salva might be feeling at each of the points listed below? I have included a word bank of emotions to help you...

<b>Example</b> Salva sees the woman at the pond.	<b>Example</b> Salva might feel hopeful that the woman will help him because, he has been left all alone and he doesn't really know what to do next.
The woman gives Salva some raw peanuts.	
The woman is not able to answer any of Salva's questions.	
Salva works hard for the woman so that she does not send him away. He fetches firewood and water.	
The woman tells Salva that she is leaving and that he cannot stay with her any longer. She says that it will be more dangerous for Salva to travel with her.
