

Science: Focussed Maths Task

Class 4 did an experiment about changing states. They recorded the temperature of water as it changed from a liquid to a solid.

- 1) How long did it take for the water to measure at 6°C?
- 2) At what temperature does the water turn to a solid?
- 3) What is the difference between the temperature of the water at 30 minutes and at 120 minutes?
- 4) How long did it take for the water to turn to a solid?
- 5) What would you label the x axis?
- 6) What would you label the y axis?
