

KPI 1 : Looking for clues that help to build inference

- What clues in the text tell us that we should be very careful when reading this book?

Look, I didn't want to be a half-blood.

If you are reading this because you think you might be one, my advice is: close this book right now. Believe whatever lie your mom or dad told you about your birth, and try to lead a normal life.

Being a half-blood is dangerous. It's scary. Most of the time, it gets you killed in painful, nasty ways.

If you're a normal kid, reading this because you think it's fiction, great. Read on. I envy you for being able to believe that none of this every happened.

But if you recognise yourself in these pages - if you feel something stirring inside - stop reading immediately. You might be one of us. And once you know that, it's only a matter of time before they sense it too. And they'll come for you.

Don't say I didn't warn you.
