# Task

1. $15 \div 3$

2. $12 \div 4$

3. $16 \div 8$
4. **Circle 1/3 of the counters below:**

5. Circle ¼ of the fish below:

6. Circle 1/8 of the sweets below:

Can you represent what Sam does using a fraction?

What is greater, 1/3 of 15 or 1/8 of 16?

Sam has 10g of sweets. He shares them with his friend.

What is the weight of the sweets Sam gets? Circle the correct answer.

3g   5g   6g

$\frac{2}{3}$ of an hour is 40 minutes.

True or false?
